

# Break the Stigma: Speaker Series

This three-part anti-stigma speaker series aims to foster understanding, reduce shame, and promote meaningful conversations that move us from judgment to compassion. This series highlights real-world experience, personal insight, and professional expertise from a police officer, a licensed alcohol and drug counselor, and a judge—all of whom have worked closely with individuals and families impacted by addiction.

**Open to anyone interested in learning more about addiction, recovery, and the importance of breaking stigma.**
